

GWM

GLOBAL WASTE MANAGEMENT

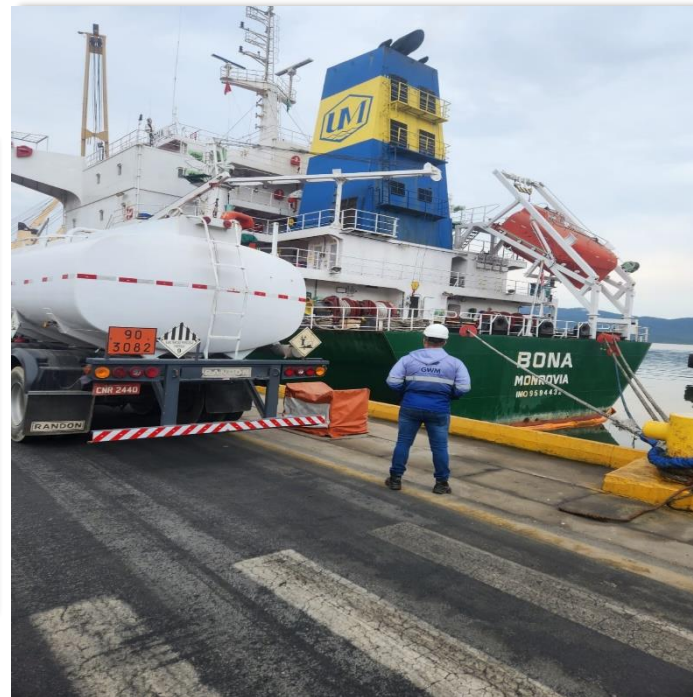

❖ GLOBAL WASTE MANAGEMENT

- ❖ GWM is a traditional company, headquartered in Sao Francisco do Sul – Brazil, coordinating waste collection in the main ports in Brazil.
- ❖ GWM plays a fundamental role in maintaining the environmental quality of our ports and seas. Its actions contribute to the preservation of marine biodiversity, the health of coastal communities, and the sustainable development of the maritime sector. In addition, the company works closely with port authorities, regulatory bodies, and non-governmental organizations, strengthening partnerships and promoting awareness of the importance of environmental protection.
- ❖ As a leading company in the industry, GWM's mission is to provide efficient and responsible solutions for the collection of SLUDGE and GARBAGE. Its unwavering commitment to environmental protection and sustainability positions it as a benchmark in the market, contributing to cleaner and safer future for present and future generations.
- ❖ Our company offers the entire coordination of the service, from collection on the ship, transportation, waste treatment, sludge processing in our refineries and final destination.

❖ GLOBAL WASTE MANAGEMENT

❖ GLOBAL WASTE MANAGEMENT

Our associate Partner companies are registered with FATMA/IBAMA and their respective State pollution Control Board &/or Pollution Control Committee for re-processing/ re-refining of Sludge (waste oil) / used oil. All relevant certificates like the Reception Certificate for sludge, shall be provided by us on board in compliance with the Marpol.

- ❖ Sludge off-landing
- ❖ Garbage to shore reception facilities as per MARPOL Annex I and V.
- ❖ Our good company offers the sludge and garbage disposal *FREE OF CHARGE* and certify by Marpol 73/78 convention and work according to Brazilian rules and agencies required.
